Christopher **Bülte**

Deep Learning · Probabilistic modeling · Uncertainty quantification

Ludwig-Maximilians University Munich, Akademiestraße 7, Munich, 80799 Germany

buelte@math.lmu.de | cbuelt.github.io

Objective

Aspiring researcher in theoretical and physics-informed machine learning with a strong background in statistics and data science, always eager to learn something new. Special interest in foundations of deep learning, uncertainty quantification, statistics, and machine learning for the sciences.

Education

Ludwigs-Maximilians-University Munich (LMU) — *Munich, Germany*

PhD on Mathematical Foundations of Deep Learning — *03/2024 - present*

- Working on the intersection of machine learning, uncertainty, and the natural sciences
- Research on theoretical foundations of uncertainty quantification and its applications
- Associated PhD student, Konrad Zuse School of Excellence in Reliable AI and Munich Center for Machine Learning
- Advisor: Prof. Dr. Gitta Kutyniok

Karlsruhe Institute of Technology (KIT) — *Karlsruhe, Germany*

M.Sc. in Economathematics — *04/2021 - 02/2024*

- Thesis: *Estimation of Extremes for Spatio-Temporal Processes with Neural Networks*, Advisor: Prof. Dr. Melanie Schienle
- Supplementary studies on Sustainable Development

Karlsruhe Institute of Technology (KIT) — *Karlsruhe, Germany*

B.Sc. in Industrial engineering — *10/2017 - 03/2021*

- Thesis: *Nonlinear Kernel Regression: Theoretical Aspects and Robust Extensions*

Professional experience

Chair of Statistical Methods and Econometrics, KIT — *Karlsruhe, Germany*

Research Assistant — *06/2022 - 02/2024*

- Developing and analyzing neural-network based methods for large-scale probabilistic weather forecasting
- Implementing different methods to assess uncertainty in data-driven weather forecasts

anacision GmbH — *Karlsruhe, Germany*

Data Science Intern — *09/2019 - 02/2020*

- Forecasting and extreme value identification for large scale time series (Python)
- Developing, testing and implementing algorithms for big data integration (Python, Apache Spark)

Karlsruhe Institute of Technology — *Karlsruhe, Germany*

Assistant Teacher — *09/2018 - 02/2020*

- Assistant Teacher for the courses Mathematics 1 & 2, and Statistics
- Conducted tutorials and problem-solving sessions for undergraduate students

Publications

Journal papers

Talks & Events

MIAPbP Workshop: Build Big or Build Smart: Examing Scale and Domain Knowledge in Machine Learning for Fundamental Physics, Munich (Germany), Contributed talk on *Probabilistic neural operators*.

ICLR 2025 Workshop on Tackling Climate Change with Machine Learning, Singapore, Poster presentation on G*raph Neural Networks for Enhancing Ensemble Forecasts of Extreme Rainfall*.

NeurIPS 2024 Workshop on Bayesian Decision-making and Uncertainty, Vancouver (Canada), Poster presentation on *Probabilistic predictions with Fourier neural operators*.

Compstat 2024, Gießen (Germany), Contributed talk on *Estimation of spatio-temporal extremes via generative neural networks*.

MathSEE Symposium 2023, Karlsruhe (Germany). Poster presentation on *Probabilistic data-driven weather forecasting* (Best poster award).

Skills

Coding	Python, git, LaTeX, R, Linux, Bash, High-performance computing
Frameworks	PyTorch, TensorFlow, SciPy, Xarray, Weights & Biases
Languages	German (native), English (fluent)
